# ALL BIDDERS PLEASE READ

## Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. **PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bid but the purchaser will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## **NOTICE TO NEW BIDDERS**

### **Our Mail Sales Are Conducted As Follows:**

1. Bids are entered in the order received, if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. Bids you send in are the maximum you are willing to pay for the coin. **WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

**ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

# IS THIS YOUR FIRST AUCTION CATALOG?

20TH EDITION (1967) GUIDE BOOK, (1965) PAPER MONEY 5th EDITION  
“TRENDS” AND OTHER AUCTION RECORDS USED IN CATALOGING.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING  
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

## BARGAINS

In every sale, some lots go at “bargain prices.” May we suggest that in addition to bidding on those lots you “really want,” you place nominal bids on those lots that “you might buy if they went at bargain prices.” While you may not obtain many of these “bargain lots”, yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

# YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, (yes we receive some now and then), we want to hear them. Having cataloged over two hundred sixty successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 8c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

104.	1855 "DOLLARS" three times size of 1854, acquired some years ago from B. Max Mehl of Fort Worth as "PROOF, VERY RARE." It does have a proof surface altho the edge is not quite as sharp as those on the later date proofs. Proofs prior to 1858 (and even some later dates) varied in "depth" and quality. Most of the time, the mint employees looked at them as "necessary evils" interfering with their regular work. If they had the time and inclination, they produced excellent specimens, but if they were in a hurry, they only superficially polished a regular die and struck the specimens without too much care. Our records indicate we have handled only one other "proof" in our thirty-odd years as professionals and it was of similar quality. ## \$4 1879-1880 STELLAS

Proposed INTERNATIONAL COIN with weight and composition around bust, "ONE STELLA—400 CENTS" on star with legend and mottos around star. The gold specimens of 1879 exist in circulated condition and circulated to some extent (they had the name of the country and had a gold metal value of \$4, therefore they were "spent" after their novelty was gone—the same as happened with the 1856 flying eagle cents). The 1879 was distributed to Congressmen, The Cabinet, and other Government officials as propaganda for the proposed coinage—the same as the 1856 Flying eagle cent was distributed earlier. The opportunity to acquire all four major varieties does not occur very often. As B. Max Mehl would say, "The opportunity to acquire the coin is as rare as the coin."

## 1858 PATTERN CENTS

Issued by the mint in sets of twelve. Most have since been broken up and incorporated in regular Flying Eagle and Indian Head cent collections. They are perennial favorites and seem to periodically rise in value in spurts along with the spurts in popularity of the regular small cents. They "liven-up" a collection and tend to make the regular series more interesting.

In Judd's 1962 edition of his monumental Pattern book, he catalogs it at \$2,500.00. We find a notation with the coin of \$3,500.00; we believe this "coin with a story" should now exceed 5,000.00. The difficulty in pricing extreme rarities such as this stem from the fact that they change hands so seldom.

### MORMON GOLD BACKED TREASURY NOTES

394. Printed issue of January 20, 1849, COMPLETE SET FOUR; 50c, \$1, \$2, \$3 new, crisp. The envelope containing the set was marked "July, 1961 \$2,000.00." We checked sales of that time as well as publications and came across the ad in the July 1961 Numismatist of a leading dealer offering a set. His description follows: **"Gold Backed Treasury Notes of the Provisional Government of the STATE OF DESERET, printed issue of January 20, 1849. Crudely printed in script type: G.S.L. CITY, JAN. 20, 1849./ Crudely printed in script type; G.S.L. CITY, JAN. 20, 1849./ NO. - 2.00c/ GOOD TO - OR BEARER. / TWO DOLLARS ON DEMAND. / 2.00c / CLERK. Payable to: N. K. WHITNEY (and so signed), Presiding Bishop of the Mormon Church. Signed by: Brigham Young, President of the Mormon Church, and H. K. Kimball, of the Church First Presidency. Countersigned by: Thomas Bullock, Mormon coiner, official. Uniface; validated by impression of the official seal of the Twelve Apostles, weakly containing the letters "PSTAPCJCLDSL DATW," signifying "Private Seal of the Twelve Apostles, Priests of the Church of Jesus Christ of Latter-Day Saints, in the Last Dispensation All over The World." 1. Issued from January 22, 1849 to April 23, 1849; the THIRD SERIES of the Utah issued Mormon paper (the earlier two issues entirely hand written and specimens now unknown). 2. Technically "warehouse receipts for gold dust," these bills were backed by at least an 80% gold reserve. 3. Printed from type and upon a press, both made by Truman Angel, Mormon Church architect. 4. Type hand set by Thomas Bullock. 5. Press operated by Brigham H. Young, nephew of the Church President. THIS EXCESSIVELY RARE MORMON PAPER CURRENCY IS: 1. The FIRST item printed in the Inter-Mountain West, and the ONLY imprint to come from the press in 1849, making it of exceptional interest and value to book collectors as well as numismatists. 2. The first representation of real governmental functions in the State of Desert (including all of Utah, Nevada, and Arizona, together with portions of New Mexico, Colorado, Wyoming, and Southern California), being the earliest examples of type-setting and printing in this entire domain. 3. Part of the EARLIEST Western issue of obsolete paper currency. 4. Among the MOST historically valuable issues of known Western paper." EXTREMELY RARE AND HISTORICAL! Fewer sets are known than the rare \$20 Mormon Gold coin! That coin was last offered in an auction in 1965 in very fine condition and realized \$6,500.00. This SET probably now worth somewhere between the \$2,000.00 price of 1961 and the \$6,500.00 of the \$20 gold. What the actual value might now be must be determined by you, the bidder with your bid.**

952. 1823 OVER 22, very good, light scratch in field. **AN OUTSTANDING RARITY!** Even the great Wolfson collection (which contained the 1804 \$1,1876-CC 20c, 1827 25c, etc.) did not have one. A careful check of our records reveals that **FEWER SPECIMENS ARE KNOWN THAN THE 1876-CC 20c!** The authoritative Coin Collector's Journal of 1958 (Wayte Raymond Publications) **SILVER COINAGES Of The PHILADELPHIA MINT** by Walter Breen states, **"ABT. 12 KNOWN"**! The **"WORLD'S GREATEST COLLECTION OF U. S. COINS"** (sold by Kosoff in 1945) called the 1823/22 **THE SECOND RAREST DATE IN THE QUARTER SERIES."** The Wolfson collection did contain the 1827 restrike quarter which the catalogers stated "Our records indicate that only eight or nine examples of this coin, and an equal number of originals, are in existence." They valued the 1827 restrike at \$10,000 and it realized \$8,250.00. That was four years ago in 1963; presumably, it would realize more today. This 1823 was acquired in 1963 at \$1,500.00. We believe its present value to be closer to .....\$2,500.00

## 1827 QUARTER — THE RAREST DATE QUARTER

958. 1827 B-2, The Restrike. Seems to fit the description of the Wolfson specimen sold by Stacks May 3-4, 1963 described as follows: **"Obverse struck from the original die. Reverse struck from the 1819 B-2 die with the square base 2. Both dies show faint traces of rust. Silver. A very nice lightly toned Proof (it is a lovely light blue glittering proof). Our records indicate that only eight or nine examples of this coin, and an equal number of originals, are in existence. The rarity of the restrikes can probably be accounted for by the limited interest in the denomination during the years 1859 and 1860 when they were made. At that time Half Cents were engaging the collecting public's attention and there was a lively demand for "Proof Only dates. Silver Dollars, the largest and handsomest of the silver issues, had always been popular which explains the 1851, 1852 and Gobrecht restrikes. The Quarter Dollar series, however, was not attracting the collector's attention during the years immediately preceding the Civil War. Mint records showed that 4,000 of the pieces had been struck in 1827. Although there didn't seem to be any available on the market, it was not as clearly understood by the collectors in those days that coins struck in a given year did not necessarily bear the date of that year. In our opinion the 1827 original may have been made for a limited number of presentation sets, but not struck for circulation. The known examples, with one exception, are Proofs.**

It was standard Mint practice to use dies until they were worn out. The coinage figures for any given year had to reflect the number and value of the pieces struck. The dating of the coin, however, was the business of the Coining Department and not the Accounting Department at the Mint. Coins were struck in accordance with instructions from the Treasurer of the United States who was informed of the needs of the commercial world. There was apparently no need for Quarter in 1826 and none were struck. It is reasonably probable, therefore, that almost all the 4,000 Quarters recorded as being struck in 1827 actually bore the date 1825 because the dies left over from that year were still in useable condition.

**We believe that the 1827 Restrike Quarter Dollar has a degree of rarity and interest that compares favorably with any other in the entire U. S. series. This specimen should command a price closer to \$10,000.00." It realized \$8,250.00. Now, four years later, we believe this great rarity should realize between \$12,500.00 and .....\$15,000.00**

CONSIGNMENT C — OHIO

1797 GEM PROOF SURFACE HALF DOLLAR

1288.	<p><b>1797 A BREATH-TAKING SHARPLY STRUCK PROOF SURFACE SPECIMEN!</b></p> <p>The bust is <b>CAMEO-SHARP WITH EVERY HAIR STRAND STRUCK UP!</b> The edge denticals are <b>CLEAR AND SHARP</b> with the exception of a tiny spot where about three are not struck up. The reverse is equally Sharp (even the eye of the eagle is sharp!) with the edge denticals deep and sharply defined (with the exception of a tiny spot where about three or four are not struck up). Under a strong glass, some faint "mint adjustment marks" are evident. <b>GLITTERING BLUE AND GOLDEN PROOF SURFACE!</b> We couldn't believe such a choice specimen existed until we examined it! <b>WE DO NOT RECALL EVER SEEING AN EQUAL SPECIMEN IN ALL OUR THIRTY-ODD YEARS AS PROFESSIONAL NUMISMATISTS!</b> We inquired as to its pedigree but all the owner knew was that it came from B. Max-Mehl (Ft. Worth) some years ago. We believe this is a "specimen strike" made for presentation to some museum or foreign ruler. Half dollar specialists generally acknowledge that the 1797 is rarer than 1796 in top condition. Whether you are looking for <b>"THE CHOICEST"</b> for type or date, we sincerely believe <b>"THIS IS THE OPPORTUNITY OF A LIFETIME"</b> (B. Max Mehl's words). Fewer and fewer of the old collections containing coins of this caliber are coming upon the market, therefore B. Max Mehl's words are undoubtedly truer now than when he uttered them some years ago. In trying to arrive at some idea of value, we are forced to use the 1796 15 stars as we could not find a comparable 1797 offered. Fortunately, we had the privilege of offering an "Uncirculated" 1796 15 stars in our March sale. It was a lovely specimen but not quite as sharp as this one; nor did it have a comparable surface. It realized \$20,000.00. We believe this 1797 "is in a class by itself" and worth .....</p>	30,000..00

PROOF & SPECIMEN STRIKE HALF DOLLARS 1807-1836

1289.	<p><b>1807 BUST LEFT</b>, small stars, raised edge both sides with every edge dentical deep and sharp, the stars are sharp with center points clear and bold, the claws of the eagle are sharp, only a few of the left wing feathers are not struck up (the usual strike has a number of the feathers not struck up), lovely blended blue and golden prooflike surface. <b>A remarkable specimen without the faintest signs of friction!</b> Undoubtedly, a specimen strike for some foreign museum or ruler. We believe this beauty will realize over \$1000, probably closer to .....</p>	1250.00
1290.	<p>1811 Date 18.1'1 but without any signs of a "O" under the final "1". The guidebook lists "1811 date 18.11 (1811 over 10)". This "apostrophe" variety should elicit some interest among the specialists. <b>Lovely bluish prooflike patina, Uncirculated</b> altho the left stars are not struck up as sharply as the right stars. RARE. ....</p>	350.00
1291.	<p>1819 OVER 18, small 9, lovely blue and golden PROOF surface, stars and edge denticals deep and sharp. What appears to be some friction is actually due to the center of both sides not being struck up. An interesting specimen. ....</p>	100.00

**PROOF & SPECIMEN STRIKE HALF DOLLARS 1807-1836 (Con't.)**

1292. 1821 Golden PROOF surface, sharp stars and dentical, faint rubbing on high points. Acquired as a "PROOF" but we hesitate to accept it as such since it doesn't have all the criteria generally associated with proofs. .... 100.00
1293. 1822 Needle-sharp strike with golden PROOF surface both sides. Acquired from B. Max Mehl (Ft. Worth) as a PROOF. It probably is, altho it does not have quite the medalllic sharpness of the proofs specially struck for collectors from 1858 ..... 500.00

1294. 1823 PATCHED 3, GLITTERING BLUISH GOLDEN PROOF! A REMARK-  
ABLE SPECIMEN OF THIS RARITY. We have seen commoner varieties  
sell at \$1000, therefore we believe it will realize between \$1,250 and ..... 1,500.00

1295. 1825 BRILLIANT SLIGHTLY GOLDEN PROOF. Have seen comparable dates (altho not this one) at ..... 750.00
1296. 1826 BRILLIANT SLIGHTLY BLUISH PROOF. Have seen comparable dates at ..... 750.00
1297. 1827 Square-base 2, bluish golden patina. Acquired from Mehl as a "PROOF" and it could very well be (unlike the later proofs, of uniform quality these early dates varied in quality from date to date and even from coin to coin of the same variety) altho it does not have quite the "depth" of proof surface as does the above. Cost the same as above but we believe it is only worth about half that of the above 1826.
1298. 1829 BLUE PROOF, slight "cabinet friction" (from sliding on the velvet of the old coin cabinet) on top hair strand. Have seen a "choice proof" of this date priced \$750, this one probably worth between \$500 and ..... 600.00
1299. 1830 BLUEPROOF WITH SHARP STARS. Have seen a comparable one priced ..... 750.00
1300. 1834 Small date, Large Stars, small letters, BLUISH PURPLE PROOF. Have seen a comparable one priced ..... 750.00
1301. 1834 Small date, small stars, small letters, BLUE PROOF. Have seen comparable at ..... 750.00
1302. 1836 Lettered Edge, BLUE PROOF altho not quite the "depth" of the above. 500.00

**1836-39 REEDED EDGE PROOF & SPECIMEN STRIKE HALVES**

1303. 1836 BRILLIANT BLUISH PROOF WITH RAISED EDGE! ONLY "ABOUT A HALF DOZEN OR SO" PROOFS SAID TO HAVE BEEN STRUCK OUT OF THE TOTAL OF 1200 ISSUED! A leading authority states, "The milled edge (reeded) 1836 half dollar in proof is worth in excess of ten times that of the normal strikes". The normal strike catalogs \$300, therefore this proof should exceed ..... 3,000.00

1304. 1837 Bluish golden Uncirculated GEM with some prooflike surface! A lovely specimen which would be exceedingly difficult to match. .... 350.00

1305. 1838 BLUISH GOLDEN PROOF. REVERSE CHANGED TO "HALF DOL." EVEN RARER THAN THE 1836! SHOULD REALIZE ABOUT THE SAME. ... 3,000.00

1306. 1839-O Mint mark obverse above date, acquired 1959 described as"BLUE & GOLD COLOR PROOF WITH WIRE EDGE! \$1500.00." We believe this remarkable type (we feel it is a "type" by itself specimen should now realize closer to ..... 2,500.00

**1839 NO DRAPERY PROOF HALF DOLLAR**

1307. 1839 NO DRAPERY from elbow, Liberty Seated, BRILLIANT BLUISH PROOF! VERY RARE TYPE IN EXCEEDINGLY RARE CONDITION! ONLY 2 OR 3 SPECIMENS SAID TO BE KNOWN! Valued by owner at \$5,000.00. If rarity is any criterion, then his valuation is "in line".

## 1839-42 WITH DRAPERY, SMALL DATES-LETTERS-EAGLE HALVES

1308. 1839 Golden Uncirculated, some prooflike surface. Popular first year type. 125.00
1309. 1840 Small letters, acquired from a leading California dealer as "PROOF". It does have a **PROOF** surface both sides as well as **RAISED EDGE BOTH SIDES and a partial Wire Edge**. We believe this remarkable specimen was cleaned some years ago and has since acquired its lovely bluish golden patina. A pinpoint edge nick seems to be its only readily observable flaw. We have a record for a comparable specimen offered at ..... 500.00
1310. 1842 TRANSITIONAL COIN, Obverse 1841 with small date, Reverse 1843 with Large Eagle and Large Letters, Brilliant slightly golden Uncirculated, **SHARPLY STRUCK WITH RAISED EDGE BOTH SIDES**, some prooflike surface. Probably a "Specimen Strike" from unpolished dies for presentation purposes. An interesting coin. .... 150.00

## 1842-46 LARGE (MEDIUM SIZE) DATE, LARGE LETTERS-EAGLE HALVES

1311. 1842 Large Date, **BLUISH GOLDEN PROOF, SHARP STRUCK WITH RAISED EDGE BOTH SIDES**. Have seen comparable dates at ..... 750.00

1312. **1842-O GLITTERING GOLDEN PROOF!** The Standard Catalogue Of United States Coins lists ten branch-mint proofs (as well as mentioning that others exist) on page 168. While this date is not included in that list, it seems to fit the criteria generally present in a proof. **Struck from polished obverse and reverse dies giving it a mirror like surface. Sharp struck with raised edge both sides.** As a leading authority has stated, "When the mint wanted a coin for "presentation purposes", they sometimes took the regular dies, polished them, and slowly struck them on selected and treated) planchets." This remarkable specimen Valued by owner at ..... 1,000.00

1313. **1846 OVER 45-O, BLUISH GOLDEN PROOF. A MAJOR VARIETY LISTED IN BIESTLE AND ALSO IN THE WORLD'S GREATEST COLLECTION SOLD IN 1945! VALUED BY OWNER AT** ..... 1,500.00

## 1846-1852 LARGE (HUGE) DATE HALVES, NO MOTTO

1314. **1846 PROOF WITH LOVELY GOLDEN TONING.** The large date has appeared (in all conditions) less frequently than the small date, therefore we are inclined to accept the owner's statement that this date in proof is rarer than many of the other early dates. Valued by owner at ..... 1000.00
1315. 1847 Acquired from a leading California dealer as "**DULL PROOF**". While the obverse has a glittering golden proof surface, the reverse has only a slight amount of proof surface. It does have a Raised Edge Both Sides. Probably struck from dies used to strike proofs and then used to strike the regular coinage. Whatever you call it, some "special care" or "special treatment" seems to have been involved in its manufacturer. Valued by owner at \$500, however we believe its actual value to be closer to about half that.

1316. **1848 BRILLIANT SLIGHTLY GOLDEN PROOF!** One of the last acquisitions (about 2 years ago) at \$1000.00. With the increasing demand for proofs, we believe this rarity could now realize closer to ..... 1,500.00

1317. **1850 BLUISH GOLDEN PROOF! POSSIBLY ONE OF THE TWO KNOWN MENTIONED IN** "Proof Coins Struck By The United States Mint 1817-1921" by W. H. Breen and published by Wayte Raymond. Acquired as "**EXCEEDINGLY RARE**" about 2 years ago at \$1,500.00. The increased demand should now send it over ..... 2,000.00

## 1846-1852 LARGE (HUGE) DATE HALVES, NO MOTTO (Con't.)

1318. **1852 GOLDEN PROOF!** We studied this coin a while before accepting it as a proof. It was sold by B. Max Mehl (Ft. Worth) some years ago as a proof. It does have a proof surface obverse and reverse and appears to have been struck from polished dies on a selected planchet. The mirror-like surface, however, does not have quite the depth of some of the other dates. Since the quality of these early proofs varies from coin to coin and date to date, we are inclined to accept it as "a hurriedly made proof." The booklet "Proof Coins Struck By The United States Mint 1817-1921" mentions "1852 One or two proofs reported, none seen." Probably, "even rarer than 1850".

## 1854 PROOF HALF DOLLAR, ARROWS AT DATE

1319. **1854 ARROWS, GLITTERING BLUE PROOF!** A lovely specimen of this great rarity and "type" coin. **SOMEWHAT RARER THAN 1855!** It is difficult to evaluate the present value of this great rarity. Five years ago, the Cox 1856 proof realized \$1000.00 and the 1857 proof therein realized \$1100.00. Mr. Cox specialized in half dollars but was unable to obtain a proof of this date, even tho he acquired virtually every rarity, including the 1838-O. The owner values this rarity at \$5,000.00. Whether this price is too high or too low, we are unable to acquire sufficient recent data to refute it. As B. Max Mehl used to say, "The opportunity to acquire this rarity is as rare as the coin itself".

## 1858-1865 PROOF HALF DOLLARS, NO MOTTO

1320. **1858 BLuish GOLDEN PROOF. ONLY 80 STRUCK!** We doubt if much more than half are still in existence today, over a century later. Somewhat undervalued in keeping with its rarity. .... 600.00

## 1865 TYPE 1866 TRANSITIONAL HALF DOLLAR PROOF

1326. **1865 TYPE 1866 WITH MOTTO, BRILLIANT BLuish PROOF.** "Only About Half A Dozen Or So Said To Be Known". The 1866 No Motto sold in 1961 at \$15,500; surely this 1865 with motto is worth a proportionate price - about \$2500.00 to close to ..... 3,000.00

## TYPE I HALF DOLLARS, 1794-95 SMALL EAGLE

1381. 1794 Very fine, some light "mint equalization marks" so characteristic of many of our early coins. RARE. Catalogs ..... 975.00
1382. 1795 Small 9, two leaves under each wing, fine. Catalogs ..... 275.00
1383. 1795 B-3g, Medium wide date, extremely fine, tiny nick. RARE SO CHOICE. ... 1,000.00

1384. 1795 THREE Leaves under each wing, very fine, die break from chin to star, characteristic reverse die break as pictured in Guidebook. RARE. Catalogs ..... \$1,000.00

## TYPE II HALF DOLLAR, 1797 FRACTION "1/2"

1385. 1797 15 STARS, HAIR IN KNOT, SMALLER EAGLE WITH "1/2" BELOW, obverse near Uncirculated having only slight friction, reverse extremely fine having a bit more friction. The last specimen to appear in our sales was extremely fine and realized \$5,700.00. This superior specimen worth closer to ..... \$7,000.00

# TYPE IV HALF DOLLARS, 1801-1807 BUST RIGHT

1386. 1801 13 STARS, LARGE HERALDIC EAGLE, golden UNCIRCULATED, slight rub on eagle's tail and high point of collar. **CONDITION CENSUS!** We have only seen one slightly superior specimen in all our thirty-odd years as professional numismatists! In this condition, it is among the Top Rarities of the entire half dollar series! The superlative condition Bauman half-dollar collection sold last December contained uncirculated specimens of 1795, 1802, 1803, etc. The 1801, however, was only "stirctly very fine"—the best he could find in years of searching. The 1801 in this condition is at least twice as rare as the 1802. The 1802 in the 1966 A.N.A. sale last August (lot 1565) realized \$1500.00. This 1801 should bring somewhat more. The realistic trend price is \$800.00 in extremely fine but does not price the "uncirculated" as as any price in "uncirculated" would necessarily be theoretical. It also prices the 1802 in extremely fine at \$450.00—further confirming our findings that the 1801 in top condition is worth about double that of the 1802.
1387. 1802 Virtually Uncirculated, only barest friction. **RARE SO CHOICE.** ..... 600.00
1388. 1805 OVER 4, golden virtually Uncirculated, only barest friction. **RARE, PARTICULARLY SO CHOICE!** Greatly undervalued in this condition. The uncirculated Bauman coin realized \$1,000.00 in December. Easily worth over ..... 500.00
1389. 1805 Bluish UNCIRCULATED but close inspection with a glass reveals the barest trace of friction, pinpoint nick. Record for about similar condition.... 385.00
1390. 1806 OVER 5, Rare early die state with "5" clear under the top of the 6 as well as the usual evidence at top right of 6, extremely fine. **RARE.** Acquired at \$250; could now exceed ..... 325.00
1391. 1806 Pointed top 6, Large 8, stem thru claw, extremely fine, interesting concavity in left reverse field. The uncirculated Bauman coin realized \$600 last December; this one worth about ..... 175.00
1392. 1806 Pointed top 6, slanted 18, stem not thru claw, extremely fine. **SCARCE.** 200.00
1393. 1806 OVER 9 (inverted 6) very fine with typical light struck hair. **RARE.** Catalogs ..... 275.00
1394. 1807 Large 8, very good and sharp. (part motto visible). ..... 55.00

## TYPE V HALF DOLLARS, 1807-1836 BUST LEFT

1395. 1807 50 OVER 20C, famous Corrected Error Die, lovely bluish golden patina. Acquired as "Uncirculated" but close examination with a glass reveals slight fricition on highest points. The Bauman Uncirculated specimen realized \$520.00; this one worth a little less.

1715. 1794 Rare Early Die State with **LEFT STARS STRUCK UP** and **SHARP COMPLETE DENTICLES AROUND REVERSE!** One of the **CHOICEST AND AESTHETICALLY APPEALING SPECIMENS WE HAVE SEEN!** As stated by the well-known authority on silver dollars, M. H. Bolender, in his book, "The United States Early Silver Dollars 1794 to 1803", "Usually found with the impression weak on lower part of date and the stars on left, and sometimes the border milling on left does not show up. The corresponding portion of reverse, especially the word STATES, will therefore also appear weak. **VERY RARE**". This remarkable specimen has a sharp **STATES** as well as the other portions! Only slight wear. A choice extremely fine, well struck specimen of our first silver dollar. The difference in catalog value between fine and very fine is \$2,500, therefore the catalog value for extremely fine should be \$8,000.00. We find accompanying this coin a note "Stack's Fairbanks Sale V. F. Sold Dec., 1960 for \$3,700.00. This coin a "buy" for \$6,500.00, Nov., 1962." We believe this lovely specimen well worth its present catalog value of ..... 8,000.00

**TYPE I SILVER DOLLARS, 1795 FLOWING HAIR**

1716. 1795 B-1, 15 STARS (states) **FLOWING HAIR**, **SMALL EAGLE**, 2 leaves beneath each wing as on 1794. A lovely virtually Uncirculated specimen with only slight friction on highest points, nice **SHARP STRIKE** with edge denticles sharp around **BOTH SIDES**, much luster in evidence. Have seen similar specimens cleaned and polished in recent years and sold as "uncirculated". Much rarer variety than the Arnel specimen sold by Stack's January, 1967. That "Brilliant Uncirculated" specimen realized \$2,900.00. While this is not comparable to that coin, still it is a lovely specimen excellent for type and date. We believe it is well worth in excess of \$1,000; possibly closer to ..... 1200.00
1717. 1795 B-5, Type with 3 **LEAVES** beneath each wing (similar to Arnel variety). Acquired as "About Uncirculated. Rare first type silver dollar". The reverse is certainly that, with only the barest friction on the center of the eagle, nice Sharp Strike with even patina and luster. The obverse is also sharply struck with even patina and luster; the stars, date and letters have only the barest friction, however the center hair is not as sharp as the top hair. A pleasing specimen becoming increasingly difficult to locate so choice. Of course, not in the class with the Robert Arnel specimen which realized \$2,900.00. Probably worth somewhere around ..... 900.00

**TYPE II SILVER DOLLARS, 1795-96 HAIR IN KNOT**

1718. 1795 B-14, **HAIR TIED IN KNOT**, **SMALLER EAGLE**, variety with Head Centered Too Far To Left, virtually Uncirculated with only barest friction on high points. A lovely **SHARP STRUCK** specimen with even patina and much luster! Greatly undervalued as this TYPE was struck by only two die combinations in limited quantity in 1795! These combinations represent two distinct "types", this wrongly centered bust variety and B-15, the properly centered bust. If this "type coin" had been in the Arnel sale (New York) in January, we feel it would have realized at least ..... 1200.00

| 1724. | 1797 B-2, 9X7 Stars obverse, REVERSE 1795 AND 1796 WITH SMALL LETTERS, Acquired as "Extra Fine and Extra Rare". At first glance it does appear to be extremely fine but close examination with a glass reveals a rubbed spot on the lower portion of the eagle and some cleverly disguised repair work at left reverse. Accompanying the coin is the following: <b>"ONLY 342 STRUCK COMPARED TO 1758 STRUCK IN 1794! THE RAREST, BY CONSIDERABLE MARGIN, OF ALL EARLY SILVER DOLLARS STRUCK FROM 1794-1803! ABOUT THE SAME NUMBER EXTANT AS THE FAMOUS 1804 DOLLAR (15 known)."</b> Missing in most "name collections", even missing in many which contained the 1804 dollar! The virtually complete Wolfson collection which contained the 1804, 1866 no motto and 1870-S (the three most expensive dollars) did not contain this RARITY! <b>We believe this to be the Most Undervalued U. S. Silver Coin!</b> Catalogs a mere \$900.00 v. f.; we believe this rarity worth closer to ..... | 1,500.00 |

### TYPE IV SILVER DOLLAR, 1797 10X6 STARS

- |       |   |          |
|-------|---|----------|
| 1725. | 1797 B-3, 10X6 STARS (the 1797 \$10 also has this star arrangement). We have not been able to uncover the reason for this particular star arrangement but believe it was done intentionally for a purpose (otherwise, why would it have been done similarly in other denominations). <b>ONLY HALF THE NUMBER STRUCK AS 1797 B-1 (9x7 stars, Large Letters)</b> ! Only now beginning to be appreciated for its true rarity. <b>A CHOICE VIRTUALLY UNCIRCULATED SPECIMEN WITH ONLY THE BAREST FRICTION.</b> The Guidebook theoretical value (we cannot find any record sufficiently current to be meaningful) for uncirculated does not reflect its rarity. <b>We believe that if a strictly uncirculated specimen were offered, it would realize around \$2,000.00</b> This specimen probably worth around ..... | 1,100.00 |

## 1798 TYPE 1796, 15 STARS & SMALL EAGLE (TYPE II)

1726. 1798 B-2, 15 STARS and small eagle as in 1796! Evidently, a finished die with the exception of the date, which was left unfinished when Tennessee was admitted as the 16th state in 1796. Presumably, a rush order for dollars was received late in 1797, after the mint was finished with the limited 1797 production and before the new 1798 13 star obverse and Large Heraldic reverse dies were ready. The unfinished 1796 die was hurriedly completed with the date 1798 and the limited number needed struck early in 1798. **SMALL LETTER REVERSE.** Bolender states, "This identical die was used for four years, but always sparingly for small issues. **VERY RARE.**" Careful study of this small letter reverse die leads us to believe that it was wrongly engraved as the eagle's breast is always weak in ALL the four years it was used—that this fact was immediately realized, and the die, even tho it was in good condition, was only used for rush orders in the absence of better dies. A choice extremely fine specimen with the eagle's breast (as on ALL we have seen in our thirty-odd years as professional numismatists) not struck up as sharply as the balance of the coin. Probably close to "Condition Census" as we have never seen a true uncirculated specimen! **VERY RARE. PARTICULARLY SO CHOICE.** ..... 750.00

## TYPE V SILVER DOLLAR, 1798 13 STARS & SMALL EAGLE

1727. 1798 B-1a, TRANSITIONAL, COIN Obverse 1798 With 13 STARS (it was realized how impractical it would be to add a star for each new state) combined with Reverse of 1797 **SMALL EAGLE** and **LARGE LETTERS.** Evidently, struck in limited quantity early in 1798 before the Large Heraldic Eagle reverse was ready. Bolender states, "From same reverse die as 1797 B-1c. **VERY RARE.**" A lovely light golden virtually Uncirculated specimen with only slight friction on high points. In the absence of any true uncirculated specimen (we do not recall seeing any in our thirty-odd years as professionals) this could very well be "CONDITION CENSUS" as claimed when it was sold to the present owner. Probably worth close to ..... 900.00

## TYPE VI SILVER DOLLARS, 1798-1803, 7X6 STARS, LARGE EAGLE & 13 STARS

1728. 1798 B-6, Knob 9, extremely fine. **RARE.** Variety with small berries, 10 arrows and 2 sticks. Seldom offered! ..... 400.00
1729. 1798 B-8a, Close date, 4 **BERRIES IN BRANCH**, many interesting die breaks, particularly on reverse. A choice extremely fine with much luster. Bolender states, "**VERY RARE.**" ..... 400.00
1730. 1798 B-13a, Medium Wide Date, **ONLY 10 ARROWS**, unlisted interested die break seventh star to ribbon, near Uncirculated, tiny nick. **RARE.** ..... 450.00
1731. 1798 B-15, Wide Date, 13 arrows, 5 small berries, spur on 9, virtually Uncirculated, only barest friction. Should realize very close to the catalog price for unc. of ..... 525.00

1732. 1798 B-27, Close date, **HIGH 8**, 13 arrows, 5 small berries (3rd berry attached to end of leaf) **SHARP STRUCK UNCIRCULATED** with lovely golden patina! Undoubtedly, **CONDITION CENSUS!** The commoner 1799 Arnel specimen sold by Stack's in January, described as "Brilliant Uncirculated, only the barest touch of friction and a small old scratch" realized \$525; surely this rarer date and variety in **GREATLY SUPERIOR CONDITION** worth closer to ..... 1,000.00

## TYPE VII SILVER DOLLARS, 1799 15 STARS REVERSE

1733. 1799 OVER 98, B-3, ERROR DIE WITH 15 STARS REVERSE, engraver tried to cover up his remarkable error by placing clouds over the first and last stars but their points "peep-out" from the clouds. A lovely bluish golden **Uncirculated specimen with only the slightest trace of friction which seems to be characteristic of nearly all the "Uncirculated" specimens of these large coins that we have seen over the years.** A "type coin" listed by Bolender as "**VERY RARE (R-5).**" The Guidebook price for "Uncirculated" is not germane as we do not recall ever seeing a choice uncirculated specimen. If such a specimen exists, we would not have any difficulty placing it at over \$1000.00; probably closer to \$1500.00. This specimen, in all probability, is **CONDITION CENSUS** and well worth ..... 750.00

1734. 1799 B-4, **IRREGULAR PERFECT DATE with ERROR 15 STARS REVERSE.** Acquired from New Netherlands as "**FINEST KNOWN RARE 1799 BOL-ENDER 4 SILVER DOLLAR**" and therein described as "Weakly and irregularly struck in centers, iridescently toned and with considerable mint lustre. So far as we have been able to determine, the former **CONDI-TION CENSUS** on this **RARE AND GROSSLY UNDERVALUED TYPE** was 40-25, which would admit the present offering as **THE FINEST KNOWN SPECIMEN.**" It has faint "mint adjustment marks" on reverse (as N.N. states, "not serious") so characteristic of many of these old coins (it saved the mint the cost of melting and recoining—important in those days with Congress meeting close to the Mint and constantly checking its expenses). N.N. further states, "Struck from worn and shattered dies **PREVIOUSLY** (obverse die) **USED WITH B-13 AND 15.** The late state (of the dies) entirely accounts for the above mentioned center weakness." This remarkable specimen has faint signs of friction on highest points. Acquired some years ago at \$500; we believe this "**FINEST KNOWN**" is now worth at least .....\$1,250.00

## TYPE VIII, SILVER DOLLAR 1799 8X5 STARS

1735. 1799 B-23, **8X5 STARS** as on \$10 gold 1799, **Uncirculated SHARPLY STRUCK with light golden patina**, barest friction on hair and cheek of bust. The earlier U. S. coins were not as protected by the edge as were the later issues. As a result, they generally acquired slight friction (not from being in circulation) from sliding on the velvet in the drawers of the old coin cabinets. Bolender says "**VERY RARE (R-5.)**" Since only the single die combination was used only in the one year, and then in a very limited striking, this "**TYPE**" coin is somewhat undervalued in keeping with its true rarity and demand! Acquired as "**CONDITION CENSUS**" several years ago at \$500; we believe it should now realize closer to ..... 1,000.00

## TYPE VI SILVER DOLLARS, 1799-1803, 7X6 STARS

1736. 1799 B-5, Left corner of U in **UNITED** missing, first star of obverse appears small and thin, **BRILLIANT SLIGHTLY BLUISH SHARP STRUCK GEM! MUCH PROOFLIKE SURFACE!** A remarkable specimen indeed, acquired as "**FIN-EST KNOWN**" in 1961 at \$600; now six years later, we believe this fantastic condition specimen worth ..... 1,500.00
1737. 1799 B-10, Perfect date, medium large berries, near Uncirculated, bluish golden patina, tiny nick. Catalogs unc. .... 450.00
1738. 1799 B-12a, **NO BERRIES IN BRANCH**, virtually Uncirculated, only barest friction. **SHARP STRUCK. RARE (R-4)** being Very Close to **VERY RARE (R-5).** Only B-11 (very rare) and B-12 (**RARE**) are the **NO BERRIES** type, therefore the Guidebook valuing it the same as the other numerous "common" varieties of 1799 must be incorrect. Acquired 1964 as "**CONDITION CEN-SUS**" at \$500; should now be worth well over ..... 650.00

# TYPE VI SILVER DOLLARS, 1799-1803, 7X6 STARS (Con't).

1739.	1799 B-17a, Perfect Date, EXTRA LARGE BERRIES, bluish golden UNCIRCULATED SHARP STRUCK GEM! THE ONLY EXTRA LARGE BERRIES DIE! Bolender states, "RARE(R-4) close to VERY RARE (R-5)". Acquired as "FINEST KNOWN" two years ago at \$1000; could now exceed .....	\$1,250.00
1740.	1799 B-15, IRREGULAR DATE, 13 STAR REVERSE, 5 TINY BERRIES (smallest of year) very good. Bolender states, "VERY RARE (R-5)". Acquired over three years ago at \$100; could now realize closer to .....	150.00

Bolender states, "Haselftine had seen but a single specimen (this is probably the one), and I have seen but this one specimen." ### 1836 GOBRECHT DOLLAR, NAME BELOW BASE

1763. 1836 "C. GOBRECHT F." in field between base and date. Rev. Eagle flying left amid stars, plain edge, **STRUCK IN COPPER**, lovely **RED AND BLUE PROOF!** While 18 silver were struck, **ONLY 2 OR 3 WERE STRUCK IN COPPER!** No silver (and of course, no copper) have appeared on the market recent enough to give us any meaningful record of value. The celebrated Wolfson collection sold in 1963 had the 1804, 1866 no motto and 1870-S silver dollars (the three most expensive dollars) but **DID NOT HAVE THIS MAJOR VARIETY** (either in silver or copper)! This remarkable specimen was acquired in 1963 when it was valued \$5,000.00; in keeping with the rise in dollar values during the intervening four years, we believe this **GREAT RARITY** will now exceed .....\$6,000.00

### 1836 DOLLAR, STARLESS OBERSE, STARS ON REVERSE

1764. 1836 "C. GOBRECHT" on base, rev. eagle flying in field containing stars (states) **PLAIN EDGE**, **PROOF** with lovely bluish golden patina. Present market seems to be around ..... 1,750.00

### 1839 DOLLAR, 13 STARS OBERSE, PLAIN EDGE

1765. 1839 13 STARS, Liberty Seated, **NO DRAPERY** from elbow, **PLAIN EDGE**, **BRILLIANT GEM PROOF!** **ONLY 3 STRUCK!** Acquired several years ago at \$7,500.00; which price seems rather reasonable since the Wolfson 1866 no motto (2 known) realized \$18,000.00 in 1963. The Guidebook lists the 1839 reeded edge variety (300 struck) at \$3,750.00; the owner values this Plain Edge variety at \$15,000.00. What it will actually bring, will have to be determined by you, the bidder.

### 1839 DOLLAR WITH REEDED EDGE

1766. 1839 13 STARS, REEDED EDGE, **BRILLIANT PROOF**, a short light scratch keeps us from calling it a gem. Quite popular. Catalogs ..... 3,750.00

### TYPE XI SILVER DOLLARS, 1840-1866 SEATED LIBERTY, NO MOTTO

TYPE XI SILVER DOLLARS, 1840-1866 SEATED LIBERTY, NO MOTTO (Con't.)

1768.	1841 Acquired as <b>"ORIGINAL PROOF—NOT TO BE CONFUSED WITH RE-STRIKE.</b> Just as half cents, quarters and others have restrikes, so do these early dollars." We are inclined to agree that original and restrrike dollars exist and would include half dollars also. This specimen has a lovely Brilliant slightly bluish PROOF surface, but as in the early half dollars, it does not have the "square" edge characteristic of proofs struck in the 1860's. The Guidebook values proof at .....	800.00
1769.	1842 Acquired as <b>"ONE-SIDED PROOF."</b> The obverse has a full PROOF surface with broad "square edge," the reverse is Prooflike (not having the "depth" of the obverse); some lines in the field keep us from calling it a gem. Probably worth somewhere around .....	300.00
1770.	1843 Acquired as <b>"ORIGINAL PROOF—NOT TO BE CONFUSED WITH RE-STRIKE."</b> It does have a PROOF surface BOTH SIDES but does not have the "square" edge of proofs struck in the 1860's (see lot 1768), tiny nick. The Guidebook values proof at .....	700.00

1778.	1850 Acquired as <b>"PROOF WITH MINOR ABRASIONS"</b> —it appears to be just that. Proof surface both sides and "square" edge. Evidently, kept with other coins. Guidebook values proof at \$800; this one probably worth around .....	500.00

1779.	1852 ORIGINAL, from the 1961 Central States Convention (lot 1830) described as <b>"ORIGINAL, LOVELY COIN WITH PROOF SURFACE, SO CHOICE IT WAS SOLD FOR A PROOF."</b> ONE OF THE RAREST DATES IN THE SERIES! **SPECIMEN SET AS REMOVED FROM FRACTIONAL SHIELD**

Fractional Currency Shields were made by the Treasury Department in 1866. EACH NOTE WAS PRINTED ON ONE SIDE ONLY, so that the obverse and reverse appear as separate notes. The 39 specimens were trimmed close, mounted, framed and sold to banks so that they might detect counterfeit notes by comparison with the genuine notes of the shield.

### 1867 UNION MILITARY SCRIP, KANSAS

2220. The following accompanied the note: "UNION MILITARY SCRIP, \$10, June 1, 1867, TOPEKA, KANSAS. Small farming vignette at upper l., trappers fighting off Indian raid at lower r. Issued under authority of an Act of the Legislature, providing for "The assumption and settlement of the claims growing out of the Price Raid in 1864, and Indian Expedition under Gen. Curtis, in July and August 1864." The act approved Feb. 26, 1867, and this note payable under "Monies received from the Government of the United States --with interest at Seven per cent per annum." An exceptionally rare item, issued under indirect authority of the U.S., and presumably still redeemable. Of the greatest historical interest and value; only the second we have ever offered! \$125.00." The above appeared on page 1392 of the October, 1961 Numismatist in an ad of a leading New York dealer. The specimen offered was "Abt. very fine." This specimen is a choice extremely fine. It is now valued by the owner at "around \$300 to \$50.00."
